

About Watering Malawi...

- ◆ **Watering Malawi advocates for long-term solutions to extreme poverty and hunger through access to clean water, simple irrigation and sanitation systems. Only 2% of Malawi's land is irrigated. The water is there, deep under ground or in a stream.**
- ◆ **Watering Malawi seeks to make simple irrigation systems available to villages in Malawi. We place wells in specific regions of Malawi where cyclical droughts have hit the hardest.**
- ◆ **When water is closer, little girls don't have to spend so much of their day going to and from the well for their families. With access to water, comes better access to school.**

WATER U DOING?

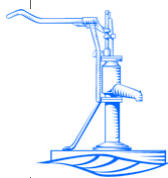

College Park Church is excited to

announce its 4th Annual Summer Music Camp, “*Water U Doing?*”. For five days, campers will grow musically through listening, playing and singing! Our songs will focus on music from Africa, and have a water theme.

Campers will also explore visual arts and dance as they learn more about our missions project, Watering Malawi.

Each day’s lesson will focus on a bible story that reminds us of God’s provisions and challenge us to help others. Campers will engage in a variety of activities that help them to:

“Prime the Pump”

“Dig Deeper”

**College Park Church
